PROFILE

Hi! I'm Craig Puxty, a bespoke front-end developer from a small town in Flintshire, North Wales, UK. Over several years, I've dedicated much of my free time to gaining proficiency in several front-end technologies and design tools, together with some back-end knowledge.

I am an analytical thinker, able to identify and define problems and then develop a workable solution. I am meticulous in my development process, following fundamental principles; kiss, dry, navigation, visual hierarchy, consistency, etc.
I can create beautiful, modern software with custom, high-quality imagery - that's accessible, scalable, responsive and performance-driven.

SKILLS

Environment

- VS Code
- Emmet
- Prettier
- NPM
- Git / Github
- React dev tools / Reactime
- Google Lighthouse

Front-end

- HTML5
- CSS3 / Sass / Bootstrap
- JavaScript (ES6+)
- React.js
- JSX
- Prop-Types
- Next.js
- Gsap

Back-end

- Node
- Express
- Mongoose
- MongoDB

Design tools

- Photoshop
- Illustrator
- Experience Design (Xd)

INTERESTS

- Coding
- UI/UX
- Digital art
- Animation
- Movies / Box sets
- Rock / Metal music
- Playstation
- Science & technology
- Heath & fitness
- Combat sports

RECENT PROJECTS

Portfolio v2

Mar 2022

Search and explore 500,000+ games for 50 platforms - including mobiles. Containing comprehensive video game data - courtesy of RAWG: videos, screenshots, descriptions, genres, ERSB ratings, Metacritic ratings and more... Games utilises the intersection observer API to provide an optional infinite scrolling feature.

Games

Nov 2021

Search and explore 500,000+ games for 50 platforms - including mobiles. Containing comprehensive video game data - courtesy of RAWG: videos, screenshots, descriptions, genres, ERSB ratings, Metacritic ratings and more... Games utilises the intersection observer API to provide an optional infinite scrolling feature.

Technologies

The Weather

Mar 2021

Check the forecast where you are - using Geolocation. Alternatively, perform manual searches - elsewhere! Forecasts include conditions, precipitation and wind (displayed hourly) in a format that suits you. The presentation includes dynamic imagery, courtesy of Unsplash - which matches (somewhat reliably) current weather conditions.

Technologies

Movies

Jan 2021

Search and explore millions of movies, television shows and people. Peruse upcoming releases or re-discover forgotten favourites. Stay up to date with who or what is currently popular and trending. Other features include trailers, cast biographies and services to watch, buy, rent and stream content.
