

GARETH CRAIG PUXTY

FRONT-END DEVELOPER

www.craigpuxty.dev

PROFILE

Over several years, I've dedicated much of my free time to gaining proficiency in several front-end technologies and design tools, together with some back-end knowledge.

I am an analytical thinker, able to identify and define problems and then develop a workable solution, utilising a meticulous development process and following fundamental principles: keep it simple stupid (kiss), don't repeat yourself (dry), simple navigation, visual hierarchy, consistency, etc.

My mission is to create beautiful, modern software with custom, high-quality imagery - that's accessible, scalable, responsive and performance-driven.

SKILLS

Environment

- VS Code
- Emmet
- Prettier
- NPM
- Git / Github
- React dev tools
- Google Lighthouse

Front-end

- HTML5
- CSS3 / Sass / Bootstrap
- JavaScript (ES6+)
- React.js
- JSX
- Prop-Types
- Next.js
- Gsap

Back-end

- Node
- Express
- Mongoose
- MongoDB

Design tools

- Photoshop
- Illustrator
- Experience Design (Xd)

INTERESTS

- Coding
- UI/UX
- Digital art
- Animation
- Movies / Box sets
- Rock / Metal music
- Playstation
- Science & technology
- Health & fitness
- Combat sports

RECENT PROJECTS

Portfolio v2

Mar 2022

A summary of my knowledge, current services offered, preferences and intentions. Also, providing a convenient way to view my latest work live and take a peek behind the scenes - while allowing further expansion and development of my skills and experience.

Technologies

Games

Nov 2021

Search and explore 500,000+ games for 50 platforms - including mobiles. Containing comprehensive video game data - courtesy of RAWG: videos, screenshots, descriptions, genres, ERSB ratings, Metacritic ratings and more... Games utilises the intersection observer API to provide an optional infinite scrolling feature.

Technologies

The Weather

Mar 2021

Check the forecast where you are - using Geolocation. Alternatively, perform manual searches - elsewhere! Forecasts include conditions, precipitation and wind (displayed hourly) in a format that suits you. The presentation includes dynamic imagery, courtesy of Unsplash - which matches (somewhat reliably) current weather conditions.

Technologies

Movies

Jan 2021

Search and explore millions of movies, television shows and people. Peruse upcoming releases or re-discover forgotten favourites. Stay up to date with who or what is currently popular and trending. Other features include trailers, cast biographies and services to watch, buy, rent and stream content.

EMPLOYMENT

PIZZA HUT

Sep 2011 > Present

Back of house (Chef)

Responsibilities include: organising and running the kitchen, preparing, cooking, serving (to brand standard) and monitoring product levels - adjusting as necessary, staff training and instruction, food safety, hygiene and general cleaning duties.

While the industries' differences are apparent, transferable skills could include planning, teamwork and strong communication, attention to detail, long hours - under pressure, and adapting to and overcoming unforeseen circumstances - while keeping a level head.

FREELANCE

Jun 2020

Workwear Clothing Direct

The completed task included customisation of a WordPress eCommerce template, imagery, icons, design, development (HTML, CSS) and installation of additional content.

Requirements

- Create full-screen product slides x9 (Hero section)
- Create SVG icon x3
- Design & develop a 3-part, full-width information banner
- Design & develop a shop by category section
- Design & develop a top brands section
